Dear Greg,

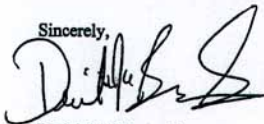

You really helped me out of a frustrating situation regarding obtaining housing, and I'd like to commend both your work and your company for the help I've received.

I've received endless difficulties in my trying search for establishing permanent housing, even though I am currently renting at a very affordable price, with no bank fees. At least I can look forward to the option consideration that is included in my lease, which could possibly convert my temporary stay to permanent.

I've met not once, but several times, to make sure I was getting the information I needed to make the process fully understandable and trouble-free. Still, I continue to thank you with specific questions and you continue to provide the same good quality service to me that you had been—even giving me recommendations to help me sort out current problems, most of them having already been resolved.

If making opportunities and talented individuals, such as yourself available to others is an indication of the service people can expect in the future, you can be sure I'll recommend Creative Alternatives, LLC to all of my friends, relatives and associates.

Sincerely,

Derick "J" Brown Sr.
